

Shoelace tying!

Spread laces out wide

Use your nipper fingers

Cross one lace over and loop one under the hole

**Pull the each side of the lace tight.
You have made your first knot.**

**Hold the lace in the middle and then bring it back to the centre.
Make one bunny ear.**

Loop the other lace around the bunny ear and poke it through the hole.

Hold each bunny ear and pull each bunny ear tight.

You now have a bow

Double knot the bow for extra strength if you need. Cross the ears over each other and then poke one ear through the hole. Pull each bunny ear tight. You now have a double knot.
